

Procedure to install USO extension

Step 1:

Download the USO Chrome extension from the i-Sprint Innovations website (www.i-sprint.com) from the menu Resources -> Software Download menu.

i-Sprint Software

This Software Download center is a navigational site to download software associated with i-Sprint's flagship solutions; namely AccessMatrix USO, UAS, etc. All software downloads are subject to i-Sprint's Software End-User License Agreement.

AccessMatrix USO			
Name	Version	Download	Note
USO Chrome Extension	5.6.2.1		

Step 2:

Unzip the usochromeExtension.zip file.

Name	Date modified	Type	Size
Today (3)			
usoChromeExtension.zip	3/8/2022 2:31 pm	Compressed (zipp...	14 KB
usoclient.log	3/8/2022 11:37 am	Text Document	102 KB
usoChromeExtension.crx	3/8/2022 2:34 pm	CRX File	15 KB

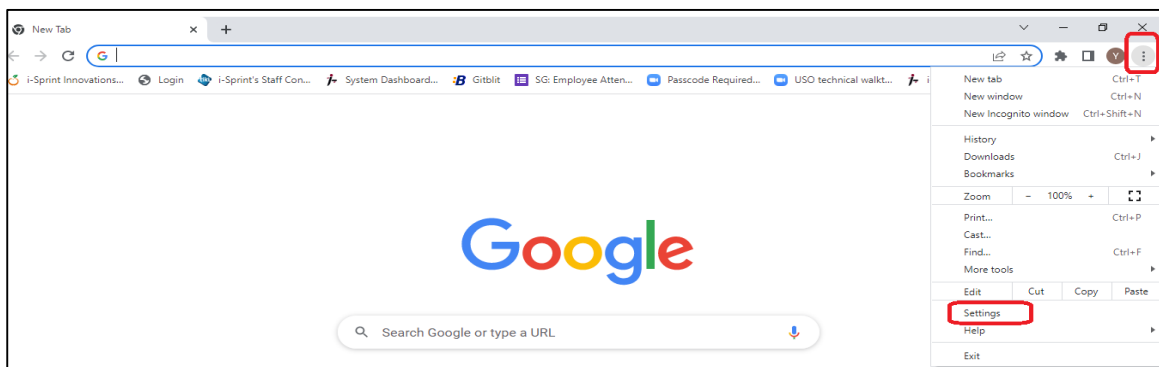

Step 3:

Launch Google Chrome or Microsoft Edge (if there are multiple profiles, please launch the appropriate profile).

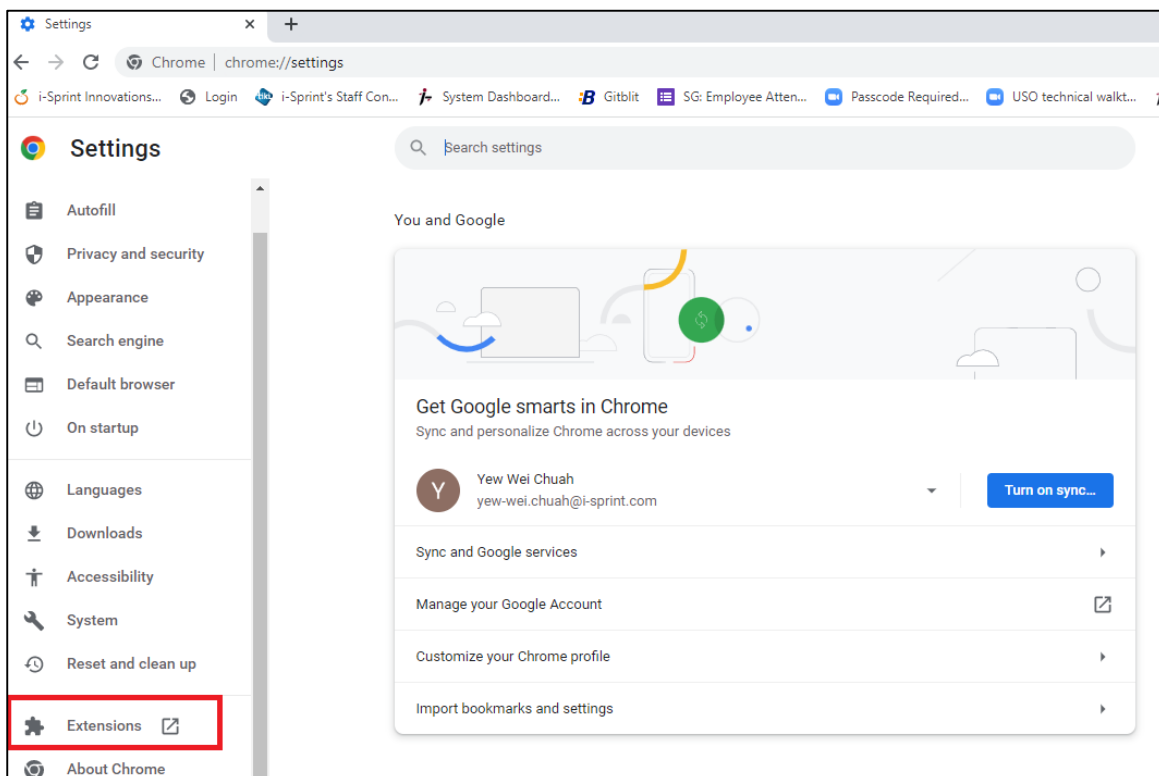

Step 4:

For Google Chrome:

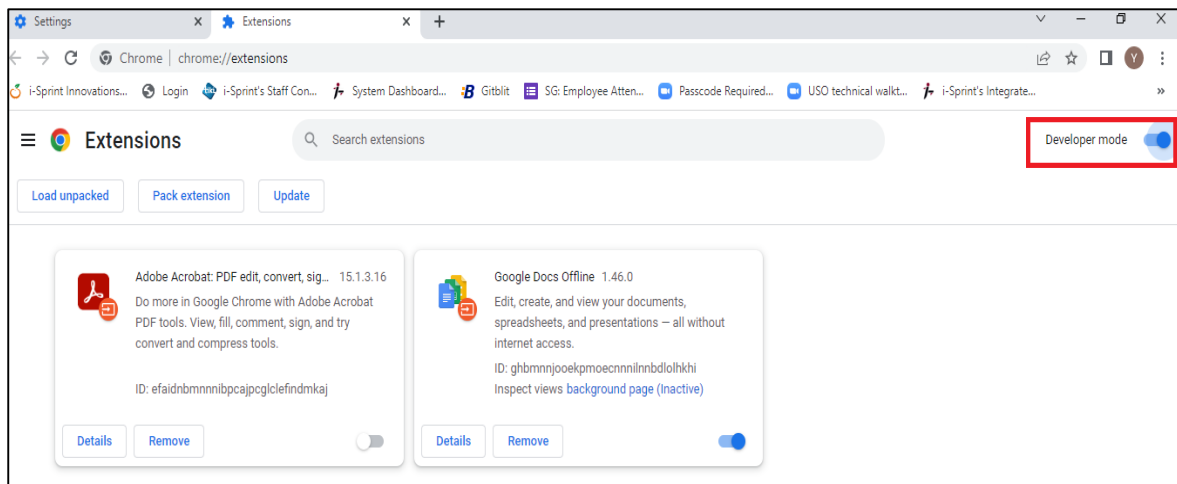

- a) Open the menu (on the right of the menu bar) and click "Settings".

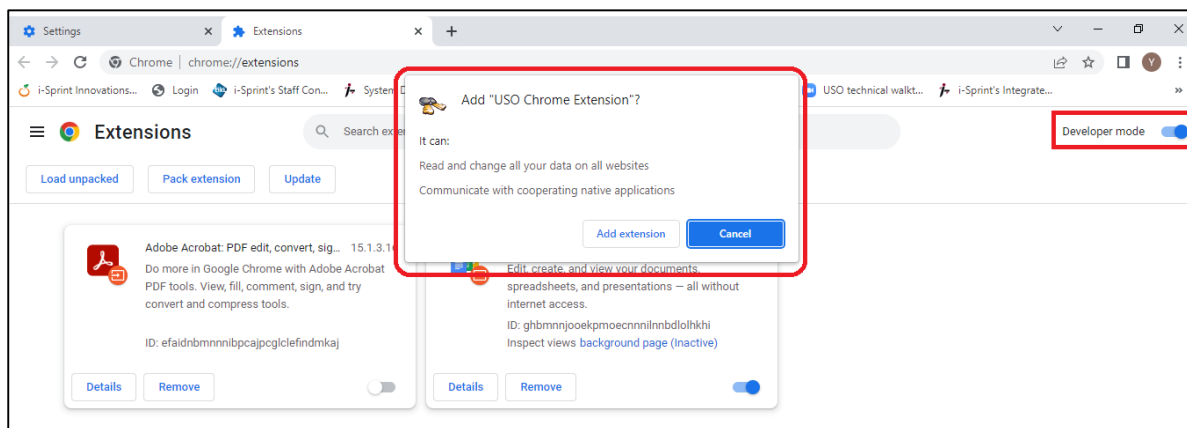

- b) Click "Extensions".

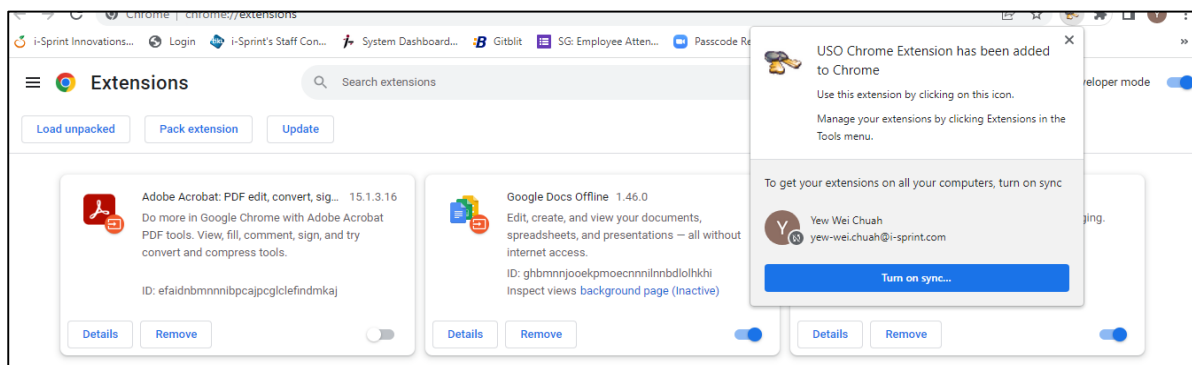

c) Enable the “Developer mode” by sliding the selector to the right.

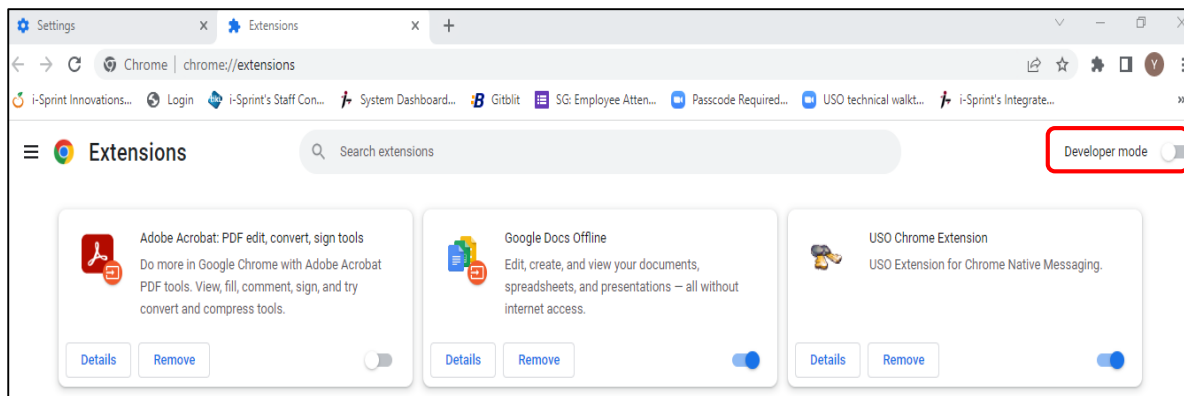

d) Drag the file USO chrome CRX file to the page. Click “Add extension”

e) After adding the extension, Google Chrome may prompt for turning on sync. If unsure, just close this dialog.

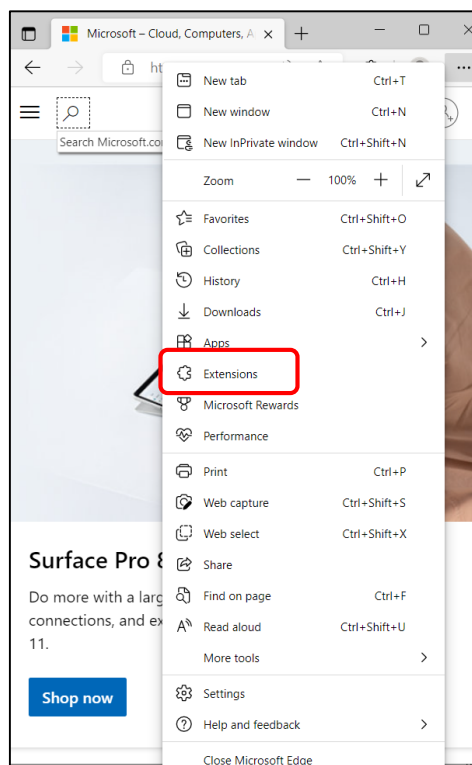

f) After successfully adding the extension, disable the “Developer mode” by sliding the selector to the left.

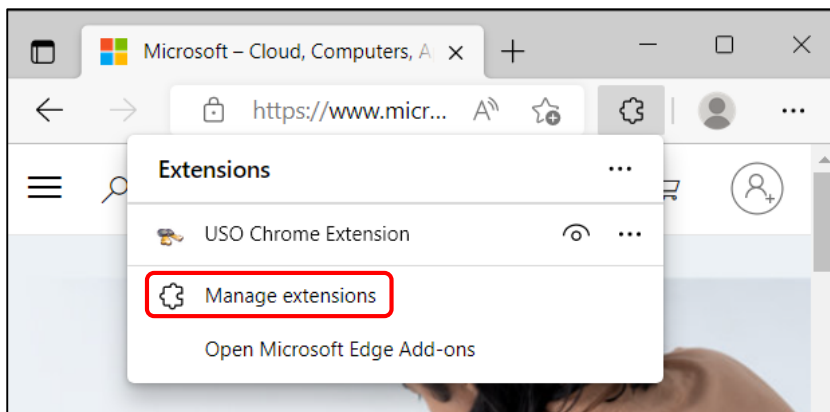

Step 5:

For Microsoft Edge:

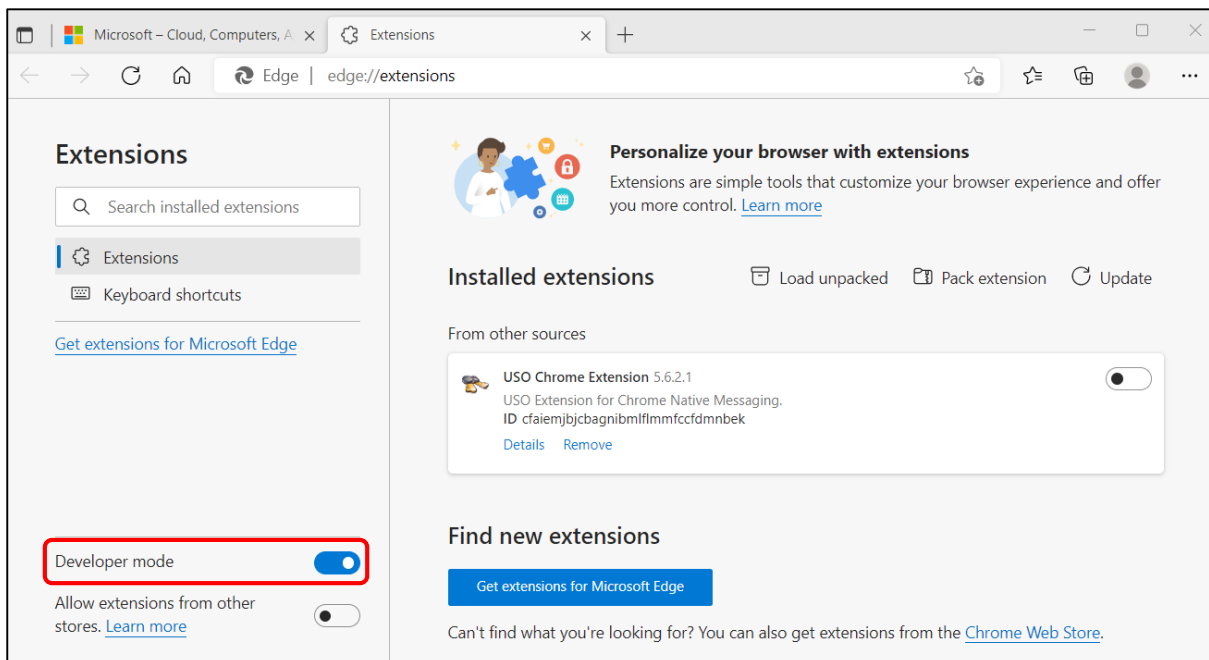

a) Open the menu (on the right of the menu bar) and select “Extensions”.

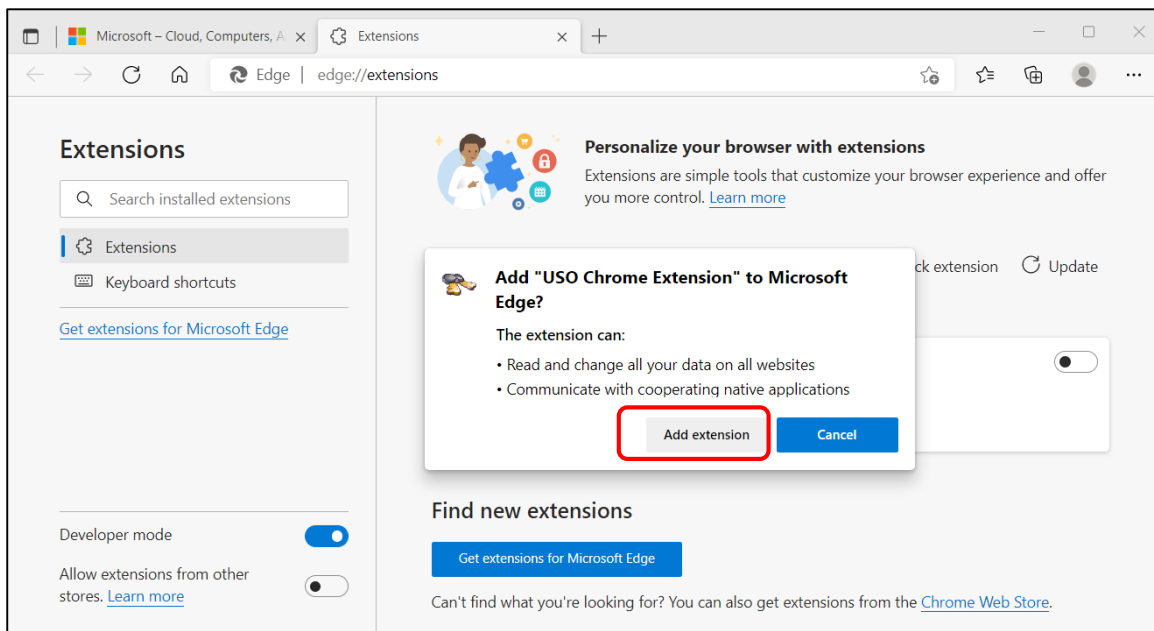

b) Click “Manage extensions”.

c) Enable the “Developer mode” by sliding the selector to the right.

d) Drag the CRX file into the page and click “Add extension”.

e) After successfully adding the extension, disable the “Developer mode” by sliding the selector to the left.
